

ELEVATE YOUR DIGITAL TRANSFORMATION

Drive innovation and productivity.
Unlock the full potential of your organization with modern M365 solutions.

At NIFTIT, we specialize in leveraging the latest tools and products from Microsoft 365 to drive your business forward. With a focus on Azure, SharePoint Online, Power Automate, Power Apps, and MS Teams integration, we are dedicated to helping you maximize efficiency, collaboration, and growth. Our experienced team deliver innovative solutions tailored to your specific needs in the dynamic world of modern technology.

Our Capabilities

NIFTIT offers custom solutions based on your needs and environment. We develop solutions that respond as your organization's needs change by creating reusable - rather than single-purpose-components. We consider long-term strategy and tradeoffs, such as growth, organizational shifts, and the evolving technology landscape.

SharePoint Consulting

Our SharePoint capabilities encompass a wide range of services to support your organization's needs. We specialize in seamless migration to SharePoint Online, delivering custom branding solutions, developing complex forms and applications using SPFx, providing administration and site governance, as well as conducting security and compliance audits. Trust us to optimize your SharePoint environment, enhance collaboration, and ensure regulatory compliance.

Microsoft Azure

Azure is at the core of our capabilities, empowering organizations to leverage the full potential of the cloud. As experts in Microsoft Azure, we provide comprehensive solutions tailored to your specific needs. From infrastructure deployment and management to data storage and analytics, we offer a wide range of services to optimize your Azure environment. Our team excels in designing scalable architectures, implementing robust security measures, and leveraging Azure's vast array of services to drive innovation and accelerate business growth. Trust us to harness the power of Azure and unlock new possibilities for your organization's success in the digital era.

Microsoft Teams

Our expertise extends to Microsoft Teams, where we excel in various aspects of its implementation and management. We specialize in planning and setting up Teams environments, ensuring optimal configurations tailored to your organization's needs. Our team excels in seamless integration with other systems, enabling smooth collaboration across platforms. Additionally, we offer custom development of plugins to enhance Teams functionality, providing tailored solutions that align with your specific requirements. We also provide comprehensive management and monitoring services, ensuring Teams operates efficiently and securely. Trust us to leverage the full potential of Microsoft Teams, enabling seamless communication and collaboration within your organization.

Power Automate and Power Apps

Our capabilities encompass developing, managing, and deploying Power Apps and Power Automate solutions. With expertise in custom app development and advanced workflow automation, we streamline your business processes for enhanced productivity. Partner with us to unlock the full potential of these powerful Microsoft tools and drive operational excellence.

Power BI

Our capabilities in Power BI extend to helping clients harness the full potential of this powerful data visualization and analysis tool. At NIFTIT, we specialize in creating visually compelling dashboards, reports, and charts that transform raw data into actionable insights. With our expertise in data consolidation and integration, we enable organizations to consolidate data from multiple sources, including complex databases and cloud services, providing a unified view for comprehensive analysis. Additionally, our team excels in developing custom Power BI reports that display complex data and facilitate data-driven decision-making. We also prioritize collaboration and sharing, enabling seamless collaboration within teams and departments by securely sharing dashboards and reports. With our mobile accessibility solutions, decision-makers can access their data on the go, staying informed and making data-driven decisions anytime, anywhere. Trust us to leverage the benefits of Power BI and empower your organization with powerful data visualization, analysis, and reporting capabilities.
