

NIFTIT IT Services CLOUD HOSTING

Expert Technology Partner To Accelerate Your Business

In 2016, NIFTIT partnered with Rackspace, combining our expertise to help your organization leverage the benefits of the cloud, enabling you to operate more efficiently and reliably in managing and delivering your apps and data. Let us help you build the best-fit solution, on the cloud of your choice.

Our services

SharePoint

With Rackspace Collaboration solutions, certified experts configure, manage, and support businesses productivity tools like Microsoft Office 365 and SharePoint – keeping them up and running. We are committed to help businesses choose, deploy, and manage the best solution to meet their unique business needs. That way, businesses can empower employee collaboration without losing focus on priorities that create true business value.

Cloud Hosting

Rackspace hosting is the global leader in hybrid cloud and founder of OpenStack, the open-source operating system for the cloud. Rackspace supports and manages the world's leading cloud platforms, saving businesses from the pain and complexity of doing it by themselves. Rackspace delivers the best-fit infrastructure for customers' IT needs, leveraging a product portfolio that allows workloads to run where they perform best – whether on the public cloud, private cloud, dedicated servers, or a combination of platforms.

Fanatical Support for AWS and Microsoft Azure

Many companies want to realize the power of Azure/AWS without having to incur the challenge and expense of managing it themselves. Rackspace has deep operational expertise to help organizations overcome these challenges. As experts in the field, Rackspace provide strategy and planning, architectural guidance, migration assistance, and ongoing 24x7x365 support to help drive down risk and increase efficiency.
